Subject: Dimock Report - May 24, 2012

Date: May 24, 2012

FIELD ACTIVITY

Water Supply (Gerald Heston)

- Provision of alternate water continues to keep water tanks filled.

Water Sampling (Gerald Heston)

- All planned home well sampling has been completed.

COMMUNICATIONS (Gerald Heston)

- All requested home visits have been completed.

CONGRESSIONAL

- The Pennsylvania Liaison continues to work with HSCD staff to pull together data in response to the House Oversight and Government Reform Committee (Subcommittee on Technology, Information Policy, Intergovernmental Relations, and Procurement Reform) request. The original request for detections of contaminants "above safe thresholds" changed to "a list of what was detected". A table is being prepared that includes home well IDs, analytes, sample dates, results, and EPA Primary MCLs for detected contaminants only. The data key, a link to the full dataset, and the 3 data points over MCLs will be provided along with this chart. The chart is in R3 review; it will be provided shortly to OCIR for OSWER review before submitting to committee staff.

LEGAL ISSUES

- None reported.

Please let me know if you have questions.
